About the Cover

The leaders of the Philippine Public Safety College, PLTCOL RICARDO F. DE LEON (Ret), MPSA, Ph.D., and PLTCOL RANDY M MALUYO, MPSA, Ph.D., Director, NFSTI, are featured on the cover of this 26th Anniversary edition of "The Investigator." The men and women of NFSTI who are passionate about supporting and carrying out their tasks in initiatives and projects to achieve the Institute's Vision are also featured on the cover. The dominant color gold symbolizes the NFSTI road to the golden anniversary while green symbolizes hope and laurels in the delivery of the most responsive training and education for the current and future generations of crime investigators.

The Year 2022 is a year of recovery of the entire world in the effect of the pandemic. The significant decreased number of infected individuals and medical breakthrough in the prevention of the severe impact of the COVID19 is getting better. With this development, all of the organizations both public and private are preparing themselves to rise again and bring back better normal conditions.

This year the National Forensic Science Training Institute (NFSTI) is celebrating its 26th Founding Anniversary bringing optimism and enthusiasm to deliver courses in Crime Investigation and Detection Course. With this year's theme C.A.R.I.N.G. Strategy to Exist @ 26th is very timely as the public safety and security sector of the nation is gradually recovering from the impact of the pandemic. As a specialized course, we are here to deliver the most responsive specialized training. To remain, we must SURGE and ACCELERATE more, as we owe it to our countrymen to create excellent graduates who will safeguard and preserve public safety despite the uncertainties through crime investigation. Imminent from this strategy, is the asynchronous lecture on Character Competency Framework presented by the author and PPSC President, Dr. RICARDO F. DE LEON, MPSA. This is only one project of the Institute in the pipeline but will create an impact on the community as well as the initial offering of the Digital Forensic Investigation Course participated by different private and public agencies. The NFSTI is one step closer to being the Center of Continuing Professional Training and Education for Crime Investigators and Forensic Science, thanks to the partnership we have earned from different agencies.

MESSAGE FROM THE OFFICE OF THE PRESIDENT

Looking back then, when I walked to the four corners of National Forensic Science Training Institute (NFSTI), I dreamt that someday this place will be a Center of Learnings that nurtures not only the skills but the character of future crime investigators of the country.

Under the 10-point agenda dubbed as ACCELERATE, this dream came true. The 3-storey building is the concrete proof that any dream will be in reality when combined with passion and dedication. The dream, which is now realized is to fuel the aspirations of future public safety and security professionals to be top-caliber investigators. This legacy will pass on from generation to generation.

These achievements won't stop us to dream more. As such, the National Forensic Science Training Institute (NFSTI) is surging to a different level and has been a game-changer in the delivery of training and education.

The theme C.A.R.I.N.G. Strategy to Exist @ 26th is very appropriate. As a unique unit, you are here to deliver the most responsive specialized training. We must SURGE and ACCELERATE more to exist as we have the responsibility to our countrymen to produce quality graduates that will protect and preserve the public's safety.

For 2022, the C.A.R.I.N.G. Strategy will be the working doctrines of NFSTI.

- Capable and high caliber pool of subject matter experts
- Accessible online learning system
- Relevant and responsive curriculum
- Innovation, digitization, and transformation
- New mindset
- Global academic leadership

Again, with the support of NFSTI staff and the guidance of our Creator, the PPSC - **NFSTI is here to exist** in building back the country stronger, resilient, and sustainable in public safety and security!

Kudos NFSTI!

Marami pong Salamat and Happy 26th Founding Anniversary!

PLTGEN RICARDO F DE LEON, (Ret.), MPSA, Ph.D.
President, PPSC

MESSAGE FROM THE OFFICE OF THE DIRECTOR

Good Day Everyone!

This special issue of "The Investigator" marks the Celebration of the 26th Anniversary Year of the National Forensic Science Training Institute (NFSTI), with a theme of "C.A.R.I.N.G. Strategy to Exist @ 26th. This remarkable moment demonstrates that NFSTI was able to make a significant space in the community, established and a growing Institute for the past years, and hope to keep achieving new milestones and this made possible by the virtue of our cherished PPSC, President PLTGEN RICARDO F DE LEON (Ret), Ph.D.

Recently, the NFSTI has offered the Digital Forensic Course (DFIC) which was multi-sectoral in nature. Different law enforcement agencies have participated in this program in the like of PNP, BJMP, BFP, NBI-Digital Forensic Division, BSP-AMLAC, Philippine Navy, Private professionals, and the PRC itself. There are other agencies like MMDA, BUCOR, and NICA who has sent their reservations for the next opening. The NFSTI is not just in-charge in the delivery of training but we are responsible for the character development of the students.

The Malasakit Program which was kicked off late last year was a success. The 2 batches of community safety webinar which was attended by almost 2,000 participants from the academe and professionals across the country is overwhelming. The NFSTI has conducted a webinar with Continuing Professional Development points given by the Board of Criminology – PRC. A total of 1,029 participants joined the said event and they are longing for more!

The NFSTI also appreciates the trust and confidence given by our PPSC President for selecting this venue to hold the PPSA Cadet's Mess Hall and Dormitory. And I would also like to show my sincere gratitude for all the hard work you have done. Your drive, determination, and effort have been exceptional. And as the Director of the National Forensic Science Training Institute,

I am proud of my team's accomplishments. Again, Happy 26th Founding Anniversary to us!

PLTCOL RANDY M MALUYO, MPSA, Ph.D.
Director

C.A.R.I.N.G. Strategy to Exist @ 26th

The National Forensic Science Training Institute has celebrated its 26th Founding Anniversary with the theme C.A.R.I.N.G. Strategy to Exist @ 26th. The theme was inspired by the steadfast commitment shown by the Institute to its stakeholders. The theme was timely because the country was slowly recovering from the pandemic. The NFSTI will remain to deliver the most responsive training and education in crime investigation and detection courses. For 26 years, NFSTI will continue to develop students' knowledge in Crime Investigation and Forensic Science. As a specialized course, the NFSTI is here to deliver the most responsive specialized training to the law enforcement agencies of the country. The Institute must SURGE and ACCELERATE more to exist as the NFSTI has the responsibility to our countrymen to produce quality graduates that will protect and preserve the public's safety.

The program was synchronously conducted via zoom and limited face-to-face set-up, to ensure enhanced hygiene measures and can safely remain physically together inside the Institute. In the lead of the PPSC President and personnel, they conducted an ocular inspection of the Philippine Public Safety Academy's Mess Hall and Dormitory located within the premise of NFSTI, by making sure everything is satisfactory, to protect its stakeholders, as well as workers for safe operations.

The PPSC President DR. RICARDO F DE LEON with the GOHS, Directors of Different CUs, Distinguished Guests, Awardees and NFSTI Staff headed by PLTCOL RANDY M MALUYO, MPSA, Ph.D., Director, NFSTI.

After the inspection, the program started at 10:00 am in the morning with PBGEN RITCHIE MEDARDO A POSADAS, MPSA, Ph.D. who is the Chief of Peace Process and Development Center of the Office of the Chief PNP as Guest of Honor and Speaker.

The President PPSC, PLTGEN RICARDO F DE LEON, MPSA, Ph.D. is also present on the occasion with VP for Administration, PBGEN FERDINANDO G SEVILLA, (Ret), MPSA, VP for Academics DR. ROMEO S. MAGSALOS, MPSA, JCSUPT HILBERT M FLOR, MPSA, Director, National Jail Management and Penology Training Institute, PLTCOL RANDY M MALUYO, MPSA,

Ph.D., Director, NFSTI and representatives from other Constitutive Units.

The celebration was highlighted by recognizing exceptional staff, faculty, and sectors who play part in extending their support towards NFSTI's Mission and Vision. A total of 47 faculty members were given Certificate of Recognition, 3 Loyalty Awardees, and 10 Institutional Awards.

And lastly, it was also the venue for the launching of the asynchronous lecture on The Character and Competency Framework for Law Enforcers and Public Safety Officers by Dr. Ricardo F De Leon, Author, and President PPSC were commenced after the awarding and recognition ceremony.

Happy 26th Founding Anniversary NFSTI!

Celebrating the Achievements of NFSTI under the Leadership

The 3-Storey NFSTI Building which envisions to be The Center of Digital Forensic Training and Education as well as to be the Center of Continuing Professional Training and Education in Crime Investigation and Forensic Science

One of the known strengths of the National Forensic Science Training Institute (NFSTI) is being always the cutting edge offering specialized courses in crime investigation aided by Forensic Science. As the Institute always wants to lead the future and is curious as to what's next. It is vital to analyze what work still has to be done and what has already been achieved. This narrative will showcase the evolution of the Institute under the guidance of our PPSC President, PLTGEN RICARDO F DE LEON (Ret), MPSA, Ph.D. from the time he was appointed. The past 6 years of a relevant and significant milestone of NFSTI were deeply rooted in the 10-point agenda, ACCELERATE, of President De Leon., where vision is getting clearer and desire to be the Center of Digital Forensic Training and Education as well as The

Center of Continuing Professional Training and Education in Crime Investigation and Forensic Science of NFSTI are getting stronger.

In 2015, the first year of implementation, the 10-point agenda is translated into actionable strategic goals to set out plans and various objectives. Honestly, the first step is always the hardest, there was a lot of alignment and planning that needs to be carefully laid out to identify possible challenges and secure either long or short-term solutions.

Until 2018, when the entire community was in awe by the inauguration of the 3-storey NFSTI building at Camp Vicente Lim, Calamba City. In the same year, the NFSTI staff underwent a thorough preparation and received guidance from the external audits in the request for the ISO 9001:2015 Certification. NFSTI challenged itself with the decision to set out on a journey from its accustomed system to the real Quality Management System (QMS). Expressing its strong will for continuous learning and improvement. It made process owners gain a habit of providing quality service to both internal and external stakeholders.

Students performing their practical exercises while others are observing online.

In this age of information, The NFSTI has secured its official email address with the domain name @nfsti.gov.ph, securing the branding and image of the institute to increase its global presence that strengthened collaborations and accreditations among local and international agencies. Giving new opportunities and a wide range of sectors to remain competitive and linked to digital society as well as the development of digital public services.

The enthusiasm of the Institute paves way for rebranding its flagship course program, a display of the eagerness of the Institute for continuous learning and development. This strategy opens up opportunities to expand its technical expertise outside of its major function and explore other career growth opportunities. Expanding and partnering with local and international agencies offering investigative courses that will benefit its stakeholders, in the hope of producing top-caliber police investigators.

of PLTGEN RICARDO F DE LEON (Ret), MPSA, Ph.D.

The welcome interphase of NFSTI Website..

In the years 2020 and 2021, COVID-19 created the largest disruption of education systems in history, affecting nearly 1.6 billion learners in more than 190 countries and all continents including the Philippines, closure of schools and other learning spaces have impacted this generation. On the other hand, this crisis has stimulated innovation within the education sector. National Forensic Science Training Institute (NFSTI) has seen innovative approaches in support of education and training continuity. The creation of virtual

classrooms was refined and these changes have also highlighted the promising future of learning. NFSTI utilizes Google classroom and Meet and a point-to-point 100mbps speed has been laid out making the Institute able to impend the accelerated changes in modes of delivering quality education and building resilient education systems.

Moreover, the massive efforts made in a short time to respond to adversity to the shock of the education system remind NFSTI that change is possible. In the same year, NFSTI strengthened its linkages to SUCs, public and private sector, experts in forensic and crime investigation assisting law enforcement and enhancing homeland security which will provide the investigators more information and knowledge to recognize and seize opportunities that would not otherwise be possible. The Institute also sought the

Behind the scene shot of the asynchronous lecture "The Character and Competency Framework for Law Enforcers and Public Safety Officers" by Dr. Ricardo F De Leon, Author and President PPSC.

partnership between Professional Criminologists Association of the Philippines (PCAP) and PCB-PRC for CRIM CPD Points and CHED for Course Accreditation to tie up with courses offered which our law enforcers can use the earned CPD points for their career progression and renewing licenses for free. In the last quarter of this year, NFSTI opened its pioneer class for Digital Forensic Investigation Course (DFIC) which has participants in different sectors. This proves that the community recognizes the entity's relevance and the value of being with a premiere Institute that will provide them with the finest education with regards to crime investigation and forensic science.

This 2022, NFSTI was also able to see early glimpses of latitude opportunities take shape across. While considering all things, NFSTI intends to convert selected subjects into asynchronous modality where students learn on their schedule, within a certain timeframe. Students can access and complete lectures, readings, and other learning materials at their own time and pace. Last March 23, 2022, as NFSTI celebrated its

26th Founding Anniversary, it is also the venue for the launching of the asynchronous lecture "The Character and Competency Framework for Law Enforcers and Public Safety Officers" by Dr. Ricardo F De Leon, Author and President PPSC.

Expect that National Forensic Science Training Institute (NFSTI) will continue to design and build courses responsibly while ensuring safety and homeland security are at the forefront.

The National Forensic Science Training Institute (NFSTI) is the sixth Constitutive Unit of the Philippine Public Safety College (PPSC). It is mandated to facilitate the professionalization of the police, law enforcement, and public safety services of the country while further strengthening and enhancing the capability of investigation units ensuring more effective and credible delivery of criminal investigation justice for the Criminal Justice System.

With the ongoing trend in modern delivery of training and education, NFSTI is preparing itself to adopt the new way of learning modalities thru the use of technology. In response to significant demand, NFSTI asynchronous learning allows students to learn on their own schedule, within a certain timeframe. Asynchronous learning may also encompass a wide variety of instructional interactions, including email exchanges between teachers, online discussion boards, and course-management systems that organize instructional materials and correspondence, among many other possible variations.

A huge advantage of online learning is that it is inherently easy to scale. The use of educational technology tools can begin to convert selected subjects to asynchronous modalities. Once created asynchronous learning you can push it out to as many people as you want and there are no scheduling challenges, geographic barriers, or device restrictions. These online programs will support the PPSC mission of serving another sector of society that's in charge of public safety and security.

The final frame of DR. RICARDO F. DE LEON, Author and President PPSC to his asynchronous learning materials on "The Character and Competency Framework for Law Enforcers and Public Safety Officers".

not only for professional learning but also for career progression as it has an equivalent CPD point for renewing licenses for criminology and other allied courses for free.

As a specialized training institution, the National Forensic Science Training Institute will conduct the development of the asynchronous modality including email, discussion boards, e-lists, and streaming audio or video. Asynchronous pedagogy includes asking the students to read or watch assignments and contents in their own timeframe at their own speed. Students also are asked to write their thinking about the course or as a response to written papers tend to happen asynchronously, requiring professors to construct cogent text and requiring students to read with care to understand the message.

This learning modality allows learners time to pause and review virtual materials until they fully grasp key concepts and will be helpful with highly technical subjects or core fundamentals. It's also an excellent option for deeper learning and exploration of concepts for both the students and the professors. The National Forensic Science Training Institute will be one step closer to achieving its vision through this new learning modality.

Let us learn Anytime, Anywhere!

Primarily, the program will focus on the conversion of selected subjects that NFSTI believes will offer more flexibility and can be easily scaled. Allowing learners to study at their own pace makes dealing with busy schedules easier. It also supports different learning styles, not only can you accommodate whether learners are audial but also the visual type of learners. Once NFSTI has created asynchronous learning content, students can use it many times as necessary without additional work and often more cost-effective than classroom learning. Students can use this opportunity

Behind the scene actions of PLTCOL RANDY M MALUYO, MPSA, Ph.D., Director, NFSTI.

Sa amin pong kagalang-galang na Director, Police Lieutenant Colonel RANDY M MALUYO Sir, mga mag-aaral ng NFSTI, at sa lahat po ng staff team NFSTI, magandang umaga po sa ating lahat.

Ngayong buwan na ito, ipinagdiriwang natin ang International Women's Month. Hayaan ninyo akong batiin ng masayang buwan ng mga kakababaihan ang lahat ng naririto.

Narito po ako sa inyong harapan para magbahagi ng kaunting trivia ng buhay ko.

Ako po si Rosario Estonilo, empleyado ng NFSTI bilang isang utility. Sa loob ng walong (8) taon, ako po ay nakapag-taguyod ng siyam (9) na apo mula po sa kanilang pag-kabata, hanggang sa kasalukuyan. Sa awa ng ating Panginoon, sila ay nasa maganda at maayos na buhay. Siyempre sa tulong na rin ng mga taong nasa paligid ko, isa na po ang team NFSTI. Kung di sa kanila, wala ako ngayon sa inyong harapan na mag-sasabi at magmamalaki na napag-aaral ko at sumusuporta sa aking mga apo.

Ang Ate Rose ng NFSTI

(Excerpt from her Speech as Resource Speaker during the 68th NFSTI Virtual Flag Raising Ceremony)

Marami akong mga pagsubok na pinag daanan kasama ang aking pamilya. Nariyan ang iwash-out kami sa Brgy. Parian, as in walang-wala kami. Parang dinaig pa namin ang nagsisimula pa lang dahil lahat ng pinundar at na-ipon kong gamit, lahat ng iyon ay tinangay ng baha dahil sa bagyo.

At that time halos maiyak ako, parang gusto ko ng sumuko. Naisip ko, hindi pa pala ako dapat mag-patalo ngayon. Maswerte pa kami dahil kami ay kumpleto, at walang masamang nangyari. Mawala man ang lahat ng bagay, wag lang ang aking pamilya. Nagsimula ulit kami sa umpisa. Pero ang hindi ko inaasahan ay ang tulong ng team NFSTI at ng gobyerno na ibinigay sa akin at sa aking pamilya. Binigyan nila ako ng pag-asa. Nag-bigay sila ng pagkain, gamot, damit, financial, at nagkaroon ng unti-unting gamit sa bahay.

Akala ko okay na ang lahat. Hindi pa pala.. "April 2, 2018", hindi ko inaasahan sa araw na iyon, araw na kung saan binawi na ng Panginoon ang aking apo na si Duko. Si Duko na naging bahagi din sa lugar ng NFSTI. Siya ay nag-pasaya, at naging aliwan ng mga empleyado dito.

Sa panahong iyon, hindi ko alam kung kanino ako lalapit para humingi ng tulong para sa apo ko, mabigyan man lang sana ng maayos na burol. At that time, nakita at nadama ko ulit ang presensiya ng buong staff ng team NFSTI. At muli hindi sila nag-dalawang isip na tulongan ako.

Sa dami ng pinagdaanan kong pagsubok at sa darating pang pagsubok sa aking buhay, isa lang ang masasabi ko, "lumaban at wag susuko!" Kumuha tayo ng lakas sa mga taong nasa paligid mo na walang sawang tumutulong ng walang kapalit at sa gabay ng ating Panginoon, malalagpasan din ang lahat ng pagsubok sa buhay.

Bilang isang babae, kaya ko ang lahat, daig ko pa ang isang lalaki sa pagiging matibay at matatag para sa aking pamilya at para sa aking mahal sa buhay. Kaya nagpapasalamat ako sa lahat ng taong nasa paligid ko at sa staff ng NFSTI. Happy, happy International Women's Month sa TULAD KONG BABAENG PALABAN!

Maraming Salamat Po!!! At Isang Mapagpalang Araw sa Ating Lahat!..

MEET YOUR VISIONARY PRESIDENT

"Dreamers dream about things being different. Visionaries envision themselves making a difference." ~ Andy Stanley

PLTGEN RICARDO F DE LEON (Ret), MPSA, Ph.D. is a visionary and an action-oriented individual. When he retired from the uniformed service, he took the road rarely traveled by a man from the military and joined the academe.

He held key positions in the Philippine National Police, including Provincial Director of Davao Oriental, Cavite, and Negros Oriental; District Director of the QCPD; Regional Director of NCR, PRO 6, and PRO 5; Director of DPL, DPCR, and DO; Executive Director of the PCTC; Commander of the PNP Anti-Illegal Drug Special Operations Task Force; and Deputy Chief, PNP for Operations.

He was named President of Mindanao State University shortly after, and eventually served as Executive Vice President of Centro Escolar University from 2008 until 2014.

Under the Duterte Administration, he has been extended as the 10th President of the Philippine Public Safety College. Armed with his commitment to innovate and provide breakthrough programs, he elevated the quality and standards of public safety education in the country.

The PPSC Legacy Plan: ACCELERATE 2020-2030, which describes the College's ten-point strategic goals, is helping to accomplish his vision for a better PPSC, which includes its four (4) Constituent Units (CUs). PPSC was able to offer broad-based programs and develop learning platforms for public safety and security professionals who can help us achieve our national goal of strong, comfortable, and secure communities through ACCELERATE.

He possesses a Masters in Business Administration and a Doctor of Philosophy degree from the Pamantasan ng Lungsod ng Maynila and Bicol University, respectively. He graduated from PMA "Matatag" Class of 1971.

MEET YOUR MAY MALASAKIT DIRECTOR

"The pessimist complains about the wind. The optimist expects it to change. The leader adjusts the sails." – John Maxwell

Looking back on his childhood days, it is good to note that he graduated with flying colors during his early years. He has been reared by his family to become a determined person to aim always for excellence and most especially imbued with spiritual and moral values as his legacy from his parents. Indeed he is a "Big Dreamer" who dreams of a star and without that, he would not be at the helm of PLTCOL. PLTCOL RANDY M MALUYO, Ph.D. entered the Philippine National Police (PNP) Service in 1997. He was then the Battalion Commander of PSBRC Class MATATAG 1997 as he manifested strong leadership skills through knowledge and professionalism as his goal, a graduate of Military Science 42 in 1995 (Advance UMROTC). He became a commissioned officer in the PNP through lateral entry (Line Officer) in the year 2003. PLTCOL MALUYO was a former Chief of the District Police Intelligence Unit of the Manila Police District. He served as an Officer-in-Charge of Regional Learning Doctrine and Development in NCRPO before his assignment as Regional Training Director of Regional Police 5. As Training Director of RTC5, PLTCOL RANDY M MALUYO, Ph.D. is the brainchild of KASUROG CARE Program that was inspired by the KASUROG COPS. The KASUROG COPS

Program was initiated by then Police Regional office 5, Director, PLTGEN RICARDO F DE LEON (Ret), MPSA, Ph.D. has created inspiration for the men and women of the Philippine National Police and various sectors in the Region. Over the past years, it has continued reaching out to the community and creating an impact to elevate the lives of its beneficiaries as well as to build rapport with the community. To continue the legacy, former Regional Training Director 5 and now the Director of National Forensic Science Training Institute (NFSTI), added new flavor to the program and was transformed to KASUROG CARE. The inspiration has made PLTCOL RANDY M MALUYO, Ph.D. to bring the principles and ideals of the KASUROG CARE program. Guided by principles and objectives of KASUROG COPS, the National Forensic Science Training Institute (NFSTI) has adapted the MALASAKIT COMMUNITY SAFETY PROGRAM. The program has three major stakeholders, those from the academe, local government units, and individual interested in public safety and security training and Education. The objectives are anchored and in support of the Philippine government Ambisyon Natin 2040 which achieves a sustainable, peaceful, and secure community for the progressive Philippines. Just recently, PLTCOL RANDY M MALUYO, Ph.D. has received an Outstanding Criminologist Award for 2021 given by the Professional Criminologist Association of the Philippines (PCAP). PLTCOL RANDY M MALUYO, Ph.D. is a Registered Criminologist, Master in Management, Bachelor of Laws, Doctor in Philosophy major in Development Administration and Philippine Public Safety Collage scholar in Master in Public Safety Administration and has awarded the PPSC's Jose Rizal award for Excellence, Lapu-Lapu Award for Leadership and Best Policy Paper. As a result, there's a good reason to proclaim from the rooftops of the world that our beloved country has created one like **PLTCOL RANDY M MALUYO, MPSA, Ph.D.** who stands as one of the strong pillars of nationalism, patriotism, and love of fellowmen – an ideal of our Filipino heroes.
